

Introduction of the **Optima 250, 300 & 310 DESIGN**

Genvex is now ready to present the new version of our controller:

Optima 250 DESIGN

Optima 300 DESIGN

Optima 310 DESIGN

The old Optima 250, 300 and 310 have been upgraded to these new Optima 250, 300 and 310 DESIGN. It now has a new and more modern design. There is new and better software, which gives the opportunities to choose between more languages and there are Help texts direct at the Display. The new controller is available and standard for the machines from the 19. January 2009.

Optima DESIGN differs from the old Optima regarding the following features:

Language variants

- There is the possibility to choose between Danish, German, English and French.

Help texts

- Is now possible to get help directly at the controller instead of only from the user manual.

Micro SD-cart:

- The controller is able to find out which optima is necessary without help. By up-grades to a new version, the only thing you have to do is to change the card.

Quality

- The quality of the automatic is tested and optimized.
